April 2022

SVITLANA DENYSENKO

Director of KSE Foundation

Since 2007, KSE Foundation has operated as an educational initiative. But from the very beginning of the full-scale Russian invasion, we have completely rebuilt the process inside our team. Protecting the lives of Ukrainians at the front, providing humanitarian assistance to refugees and supporting everyone in the liberated territories is our constant priority.

From the very beginning of the humanitarian fundraiser campaign, KSE Foundation transferred the process of distributing the collected materials to our partners and colleagues, as they better understand the current needs and requests. We have enlisted the support of international and Ukrainian companies, and we also cooperate with state authorities, such as the Ministry of Health of Ukraine, the Ministry of Economy of Ukraine, Fozzy Group, Nova Ukraine etc.

The support of philanthropists and our friends abroad is now more important than ever. Protecting Ukraine and protecting the lives of our military is the key to our success in the war against the Russian aggressor.

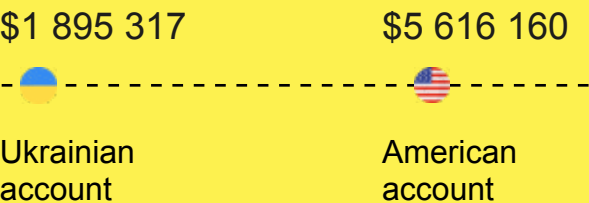

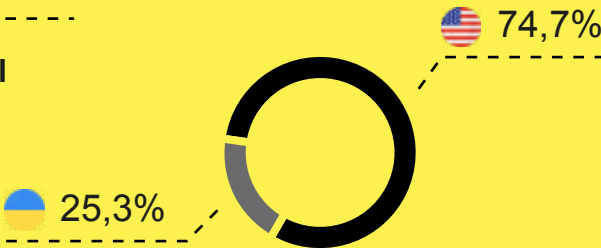

With the help of donations from philanthropists, we can supply our defenders with the necessary equipment and protective kits, provide quality medical support to residents of the liberated territories, distribute necessary medicines and protective kits among volunteers and ordinary citizens, as well as deliver necessary humanitarian assistance to all those in dire need.

The KSE team is grateful to everyone who joined the fundraiser. Your donations benefit thousands of our citizens!

**Special thanks for the high confidence in the work of KSE Foundation!
Stronger together!**
