

KSE | Foundation

August 2022

SVITLANA DENYSENKO

Director of KSE Foundation

In August, the KSE Foundation initiated a new charitable project, presented an audit of its activities for six months of the war, and was included in the top ten charitable initiatives, according to the edition of HB.

We are happy to announce the launch of the Pitch In For Ukraine project. This program allows football players from all over the world to donate to help Ukrainians. Partners of the foundation in this initiative are Shakhtar Social Foundation and the platform initiated by the President of Ukraine Volodymyr Zelensky, United24, together with the Saving Lives charity fund.

Our foundation also promotes a culture of transparency in charitable activities. In August, we presented an audit of our activities from February to June 2022. We believe that trust between the foundation and benefactors is the foundation of our work, and trust must be maintained.

Today in Ukraine, the topic of charity is becoming media significant - the newspaper editors noted KSE Foundation as one of the ten charity projects that help the army the most.

Of course, we continue our work in our main direction - providing Ukrainian citizens and defenders with humanitarian aid, and continue to work on projects to rebuild the destroyed infrastructure.

The KSE Group team is grateful to everyone participating in our charity projects.

Together we are a power!
