

January 2023

REPORT

SVITLANA DENYSENKO

Director of KSE Foundation

"Hi! How are you? Can I help?"

Over the past year, each of us has heard these words. They have become a symbol of love and care for those we care about. And they perfectly summarize this challenging year of work of the Kyiv School of Economics Foundation team.

In 2023, the KSE Foundation will continue to work towards Ukraine's victory and our successful future - in developing educational projects, supporting talented people, and restoring the liberated territories.

The Safe Education project is reopening school doors for thousands of students across Ukraine. We have already equipped modern shelters in 13 educational institutions and are currently arranging shelters in 5 more schools thanks to the support of our friends and partners.

The Talents For Ukraine initiative supports unique and talented Ukrainians who are creating the modern world with their own hands. More than thirty Ukrainians have already received grants from us that will allow them to bring their breakthrough ideas and plans to life.

The construction of an outpatient clinic in the village of Makariv is nearing completion. Thanks to the help of our benefactors, the renovated building will soon open its doors to thousands of patients. We are returning normal life to the war-torn Ukrainian lands.

These projects are a symbol of our unity and incredible strength that no enemy can overcome. The team of the Kyiv School of Economics Charitable Foundation is extremely grateful to everyone who responded and helped us make these dreams come true.

**We thank each of our benefactors!
Together we will definitely win!**
